# Welcome to Howe Gardens

---

Come and let us show you the new varieties of Daylilies and Iris we are constantly adding to our collection.

We have the old time favorites, still worthy of a place in your garden; some of the very latest new ones and many of the finest introductions of recent years, which are now very reasonably priced.

Our list of satisfied customers is growing fast and we are now known as **HOWE GARDENS**.

If it is not possible for you to visit with us, your orders will get the same careful attention, with prompt service, good, thrifty plants and extras that will please you.

The Iris generally reach their bloom peak around the first week in June. Daylily bloom begins with the Iris and continues until frost, with the most bloom to be seen during July.

With very best wishes for a happy garden year in 1950.

O. R. HOWE, JR.

## TERMS OF SALE

**Guarantee** is made that all stock is healthy, free from disease or pests and is true to name. Any errors will be promptly rectified or refund made.

Join the **American Iris Society** and receive the quarterly bulletins, containing a wealth of information and news about your favorite flower. Attend the Winter regional meetings and meet other Iris enthusiasts and see the beautiful color slides and color motion pictures. Send \$3.50 to American Iris Society, 444 Chestnut Street, Nashville, Tenn.

Join **The Hemerocallis Society** and receive the year book, packed with information regarding the

"flower of the future." You will like it and it will give you the answer to most of your Daylily problems. Send check for \$3.00 to Sec-Treas. Pearl Sherwood, Atlantic, Iowa.

If you wish, just send me your check, made payable to either society, and I will take care of it for you and will be pleased to send you a free Iris, either Great Lakes, Aztec Copper or Late Sun, or a free Daylily, either Golden West, Dorothy McDade, or Wau-bun.

# Daylilies

Hemerocallis, widely known as Daylilies, are the ideal hardy perennial for bloom in your garden, from Iris time until frost.

Adaptable to all sections of our country and to all types of soil, to sun or shade and free from insects and disease, they will give you colorful bloom even in dry periods.

They require little attention and once established are a beauty spot in your garden for years.

From over 600 varieties now growing in our garden we offer the following proven varieties.
